

Greenspeed Hydra Allround Microfiber Mop - 54 x 25 cm - GREEN

GENERAL

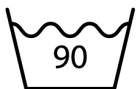

High-quality microfiber mop for Hydra floor squeegee.

- Effective & fast cleaning due to high quality microfiber.
- Ergonomic, due to the striped structure the mop glides easily over the floor.
- Also suitable for cleaning walls, doors and ceilings or dusting floors.
- High absorbency, 6 times its own weight.
- Solid edge finish that prevents the microfiber mop from shrinking.
- Low washing volume compared to standard mops.
- Long service life with at least 600 washes.

USAGE

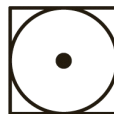

1. Before first use, wash the mop once in the washing machine.
2. Impregnate the Hydra mop: use a maximum of 70 ml of water per mop. So for 5 mops use a maximum of 350 ml of water. Place half of the mops in a bucket. Add half of the water to it. Place the remaining mops in the bucket and add the rest of the water. The mops are now clammy wet for optimal use.
3. Place the opening of the Hydra mop over the hooks of the floor puller and then place the floor system on the floor with the floor puller on top of the mop.
4. Start cleaning, regularly move the floor puller backwards on the mop. Use the mop on both sides.
5. Remove the mop hygienically by pulling a loop to the side and place the mop in the washing net.
6. We recommend washing mops at 60°C with a detergent for colored fabrics such as Greenspeed detergent. Lower washing temperatures help protect the environment.

Machine wash, 90 °C

Do not bleach

Tumble dry, low heat (60 °C)

Do not iron

Wash without fabric softener

Greenspeed Hydra Allround Microfiber Mop - 54 x 25 cm - GREEN

TECHNICAL SPECIFICATIONS

Dimensions product (WxHxD) 54 x .2 x 25 cm

Dimensions: 54x25 cm

Weight: 65 g

Composition: 50% microfiber & 50% PET

Color: Green

Density: 390 g/m%B2

Washing: 500* - 1000**

Lifetime: 2.5 years***

Microplastic Score A

* Minimum amount of washes (under normal conditions)

** Estimated amount of washes (under recommended optimal conditions)

*** 1 wash/day (under recommended optimal conditions)
