

Biozone Aircare 30 - Air purifier

GENERAL

The Biozone Aircare is an innovative system designed to continuously improve indoor air quality while actively reducing odors, bacteria, viruses, and mold. Thanks to its advanced technology, this unit creates a healthier and fresher environment.

- The unit uses a combination of UV technology and photoplasma
- These technologies work together to break down organic contaminants at the molecular level, without the use of chemical products
- Continuous and fully automatic operation
- Purifies the air
- Eliminates bacteria, viruses, yeasts, molds, and organic odors (e.g. vomit, urine, and feces)
- 100% environmentally friendly and safe to use (people can safely remain in the same room while the unit is operating)
- Suitable for use in healthcare facilities, restrooms, offices, hospitality venues, kitchens, waste processing facilities, and animal housing
- Simple and cost-effective to operate and maintain: the lamp only needs to be replaced once a year, even when the unit operates 24/7

USAGE

- The Biozone Aircare can be set with a timer for 2, 4, or 8 hours.
- The Biozone Aircare offers three fan speed settings: Low, Medium, and High.
- Includes remote control.
- Mount or place the Biozone Aircare at an elevated position for optimal performance.
- If an air freshener or fragrance diffuser is used in the same room, the Biozone Aircare will also break down the fragrance molecules.

Biozone Aircare 30 - Air purifier

TECHNICAL SPECIFICATIONS

Dimensions product (LxHxW) 41 x 9.5 x 12.5 cm

The Biozone Aircare produces a low level of ozone (<0.04 ppm). This concentration is not harmful to people, animals, or plants, although it is not completely odorless.

LOGISTIC DATA

Product

Article	777030
Unit	Piece
Dimensions	41 x 9.5 x 12.5 cm
Gross weight	2200 g
Net weight	2200 g
EAN code	5420015515088

Packing

Quantity per packing	6
Dimensions	42 x 30 x 25 cm
Gross weight	13450 g
EAN code	6152806476405
